This is great. Thank you. We have always added so I'm happy not to in the future! One less thing to remember!

Thanks,

*Paula Krall*

Morning y'all!

I'm making the change re: Programmatic Admin condition Jackie mentioned below. This should be good to go soon!

Best  
Christian

Christian,

Your award doc looks good, but I noticed that the program included pre-award costs in the Programmatic T&Cs.

#### **D. Pre-Award Costs**

In accordance with 2 CFR 1500.8, prospective EPA award recipients may incur allowable project costs 90 calendar days before the Federal awarding agency makes the Federal award. Expenses that are expected to be incurred more than 90 calendar days before the date of award require the prior approval of EPA. All costs incurred before EPA makes the award are incurred at the recipient's own risk. EPA is under no obligation to reimburse such costs if, for any reason, the recipient does not receive a Federal award or if the Federal award is less than anticipated and inadequate to cover such costs.

Pre-award costs have been approved in accordance with the recipient's application dated September 30, 2020.

Pre-award costs are an Admin condition. Please remove from the programmatic T&Cs and add to the admin. There is a standardized pre-award cost condition in the National Admin T&C which is a lot less wordy! You can let the PO know you are making this change so she is aware not to add this to the programmatic T&Cs in the future.

Let me know when ready to approve.

Thanks,  
J
